***WRITE YOUR LETTER TODAY
TO SAVE MCLAREN PARK!***

Save McLaren Park and our allies have been working hard to stop a disc golf course slated for construction in McLaren Park. These efforts recently paid off when SF Rec/Park admitted they had not properly notified the public; therefore, they have called for public hearings. So, **NOW is the time to write your letter to city officials!** A signed letter sent through the U.S. Mail is most impressive to officials, but email or fax is good (addresses below). Send copies of your letter to: 1) Supervisor Malia Cohen, 2) your supervisor (if not Cohen), 3) Phil Ginsburg, 4) President Mark Buell of Rec/Park Commission, and 5) info@savemclarenpark.org.

Your comments could include the following:

- Your feelings about the 2005 Rec/Park Commission approving the construction of an 18-hole disc golf course in the heart of McLaren Park without properly notifying neighbors and stakeholders.
- How you enjoy McLaren Park - as it is.
- Concerns about how existing passive recreational activities will be affected by a disc golf course.
- Concerns about environmental damage caused by players using the disc golf course.

You should also assert the following:

1. Disc golf is fundamentally incompatible with existing and desired uses of the park.
2. Rec/Park must rescind its 2005 decision approving a disc golf course in McLaren Park.
3. Prior to any decision to install a disc golf course in McLaren Park, we demand an extensive public process and environmental review.
